Description

Introducing an extremely rare, once-in-a-lifetime, offering. The Perkins legacy ranch lands, one of Pemberton's founding family acreages, has a history that stretches as far back as the 1950s. There is nothing like it available & there may never be another one. The incredible 321 acre property spans a footprint of approximately 1.3 km x 1.5 km & has close to 2 kms of Lillooet River waterfront. From water rights on Cuppage Creek, to the 60+ acres of producing hay & potato fields, to it's many stands of towering cedar trees, this property is both stunning & bountiful. As a new generation of rancher, you will continue to be a steward of the land & have the honour of carrying on the tradition of farming in the fertile Pemberton Valley. Nature at its finest. Only in Beautiful British Columbia...
